

# Edward Do

## Software Developer

In good fortune, I've discovered that I have what some would call 'the knack' for programming. Picking skills up at a rapid pace as I progressed as a top student through GA's software engineering immersive course, I am determined to maintain this momentum and learn as much as I can moving forward.

## Portfolio

September 2022

### tonguist

MongoDB, Express, React, Node

[visit site](#) - best viewed on mobile

A flashcards web app centred around language learning that dynamically tracks daily and weekly progress through intuitive visual cues.

August 2022

### Brain Train

React, Firebase

[visit site](#)

A collection of 5 highly interactive brain trainer games made using React. Brain Train showcases the capabilities of interactivity using React

July 2022

### ana

Ruby on Rails, PostgreSQL

[visit site](#)

A forum board built with Ruby on Rails that deals with complex handlings of its database. This site deals with several many-to-many associations and different ways of sorting data.

June 2022

### Tic-Tac-Toe

JavaScript, jQuery

[visit site](#)

My very first project. This implementation of an in-browser tic-tac-toe game features an *unbeatable* 'AI'.

## Work experience

March - June 2022

### Park Hyatt Events Management

This prestigious establishment gave me the opportunity to serve at the highest levels of hospitality. A 5 star fine dining experience, I had to work under the highest standards and thrive under the pressure of management, as well as clients.

March - June 2022

### Waterview Events Management

Working with large scale events including weddings and functions, I had to maintain quality of service while serving large quantities. Constantly interacting with clients, I learned most of all how to ensure the customer leaves with a satisfied experience.

July 2022 - December 2021

### Amazon Warehouse Logistics

Behind the scenes of the largest commercial company in the world, working at the Amazon warehouse fulfilling logistics duties taught me the ins and outs of how the commercial industry operates, and trained me to fulfil daily KPI's on a daily basis.
